Tallahassee, FL 32399-0450

JARED W. PERDUE, P.E.
SECRETARY

POLICY

Effective: August 3, 2026
Office: Transit
Topic No.: 000-725-025-I
Reference: 23 USC 120(i)(1)

USE OF TOLL REVENUE CREDITS FOR PUBLIC TRANSIT CAPITAL PROJECTS

It is the policy of the Department of Transportation to make available the option to use toll revenue credits (TRCs), authorized by **Title 23 U.S.C. 120(i)(1)**, for soft match to Florida transit systems on eligible federal transit capital projects to maximize federal participation, contingent upon the Department's program constraints.

Eligible projects include transit capital projects using Federal Transit Administration (FTA) formula funding and Emergency Relief Program funding as well as Congressionally Directed Spending (CDS). All projects must be consistent with the State of Florida energy policy set forth in Section 377.601(3), F.S.

The Public Transit Office is responsible for approving the use of toll revenue credits for transit capital projects utilizing FTA formula funding and Emergency Relief Program funding. CDS projects utilizing TRCs must receive approval from the applicable District Secretary, Chief Finance and Administration Officer and Chief Strategy Officer.

The Public Transit Office will coordinate on an annual basis with the Finance, Program and Resource Allocation Office to determine the availability of TRCs.
