

**Florida Department of Transportation  
Summary of Public-Private Partnership Projects  
Section 334.30(9), Florida Statutes  
for FY 2027 – FY 2031  
Based on 2/11/2026 Snapshot**

Section 334.30(9), Florida Statutes provides that:

*The department shall provide a summary of new public-private partnership projects each year as part of the submittal of the Tentative Work Program pursuant to s. [339.135](#). This summary shall include identification of planned funding from the State Transportation Trust Fund beyond the 5-year Tentative Work Program period that are the public involvement process for project, including discussion of the planned use of future funds to deliver the project.*

FDOT reports that no new public-private partnerships are under consideration at this time. The Department has a total of 17 P3 projects. Two are currently under construction, three are in operations (long-term availability payment concessions), and 12 are complete.
